#### LAS CRUCES HAS BUILDING ACTIVITY

Pretty Homes Erected: Music Club Holds Last Meeting of the Season.

The office of The Bernid for Las Cruces is in the Robinson Drug Store, "The Quality Store." This firm will deliver The Herald each night at the regular rate of 60 cents

Las Cruces, N. M., April 25.—Build-ing activity here continues. The walls are up, and the roofs are being put on the four Forbes houses, the work going shead on all four and when com-pleted they will be modern homes of dobe, plaster finish, pebble dash, with frame upper floor of shingles, stained to form a pretty contrast. There are seven rooms in each house, with a large porch across the entire front of each. It is estimated the four houses will be completed and ready for

houses will be completed and ready for occupany by May 10th.

Edw. Wade, jr., is shortly to commence work on his new residence on Alameda drive, just north of Dr. Cornell's. The building will be of adobe, cobbleatons and cement, with shingle stained for the upper part, and will be a bungalow of seven rooms, completely modern. The frontage is east and south and will be a very desirable home when completed, the estimated cost about \$4950.

Moral: What's the Use?

# An old Irish Protestant preacher had announced the major and minor prophets as the subject of his discourse for a certain Sunday. For an hour and a half he talked of the major prophets, ansigning each to his proper place. Then taking up the second division of his sermon, he said: "And now we come to the minor prophets, First, then, what place shail we give to Hosea?" A tall man rose from one of the back seats, and, with a reverential bow, politically said: "If you plaze, sor, he can have my

Pearson Plant Is Now Being and Wire.

Fiber from bear grass, which grows wild on the plains of western Texas and on the desert west of El Paso, will be used by the Pearson paper making plant in El Paso for making the finer qualities of paper, if a sufficient supply of the raw material can be ob-

The officials of the Pearson company

raised.

The officials of the Pearson company are now investigating the source of this paper making supply with a view of learning the extent of the bear grass fields in this section of the southwest and the cost of transporting it to the factory, which is to be operated in connection with the El Paso Milling company's box factory and planing mills.

The work of constructing the Pearson plant is progressing rapidly and the first story frames are now being raised. A force of 125 men is at work on the construction of the big planing mills and box factory which will occupy a ground space 462 by 1005 feet on the plant site along the river front. It is expected to have the two auxiliary plants in operation by August 1 and the machine layout will be installed as rapidly as the buildings are enclosed. The lumber supply for the construction work is not being interefered with and is being sent through from the Madera. Chih., mills in train load shipments.

A concrete fence is being built around the Pearson plant site to prevent the lumber and boxing from being carried away by the residents of the Mexican quarter. The fence will have 500 concrete posts and will be strong with barbed wire. An ingenious method of setting posts and stringing the wire forms a trough of wire on the top of the fence which will prevent anyone climbing over it. The entire plant site will be enclosed by the fence. The Experience of Two Girls Rochester, N. Y .- "I have a daughter 13 years old who has always beer very healthy until recently when she complained of dizziness and cramps every her home from school and put her to bec "After giving her only two bottles of pound she is now enjoying the best of health.
